

Courage

We Are Scientists

I measure my words when I'm speaking
I tell you that everything's fine
I've been waiting for you to arrive
Where is your courage?

Considering how I've been beaten
I'm lucky to still be alive
Time is a wasting
You never arrived
Where is your courage?

I've been making mistakes
Wasn't aware
I just barely escaped
With seconds to spare
With seconds to spare

Time is a wasting
You never arrived
Where is your courage?
