

Down The Hall

We Are Scientists

Walking down the hall
Now I'm right where I was before
With baggage I don't need
With baggage I don't need

After all this time
Things I thought that I'd left behind
Are catching up with me
Are catching up with me

Now I'm starting to see you just keep following me
Showing up like I never left
Why don't you help me out?
Why don't you help me out?

I knew it couldn't last
Falling headlong into the past
That this was just a dream
That this was just a dream

I guess in some small way
To revert to a former state
Is almost a relief
Is almost a relief

'Cause now I'm starting to see you just keep following me
Showing up like I never left
Why don't you help me out?
Why don't you help me out?

'Cause nothing's going to change just because I went away
It's not enough, what did I expect
Why don't you help me out?
Why don't you help me out?

How could you let me get so far away?
How could you let me get so far away?
So far away
So far away
