

## Return the Favor

We Are Scientists

Personality is worthless  
If love is  
What you drew out of me  
Is a personal burden

Tonight, it's occurred to me  
I might just return the favor  
I hope that you're not afraid of asking

I've never been impressed  
By lectures or censure  
But its been for the best  
I'm better, than ever

Tonight, it's occurred to me  
I might just return the favor  
I hope that you're not afraid of asking, try me

Tonight, it's occurred to me  
I might just return the favor  
I hope that you're not afraid of asking,  
Try me, try me, try me
