

Slow Down

We Are Scientists

I wanna know
How you intend to keep this goin when
Each night you fall

Anything you want she said
As long as you keep up she said

But how am I supposed to keep this up alone
How am I supposed to keep this up alone
How am I supposed to keep this up alone
I wish you would slow down, slow down

There isn't time to be your lies lets just get on with it
She'd love my mind if only I weren't such an idiot.

Anything you want she said
As long as you keep up she said

But how am I supposed to keep this up alone
How am I supposed to keep this up alone
How am I supposed to keep this up alone
I wish you would slow down, slow down

Anything you want she said
As long as you keep up she said

But how am I supposed to keep this up alone
How am I supposed to keep this up alone
How am I supposed to keep this up alone
I wish you would slow down, slow down, slow down, slow down
