

Worth the Wait

We Are Scientists

If I had one traffic common sense
I would have already left
Don't ask how long I've been waiting here
Yeah, you can probably guess

Tracing the arc of the hour hand
This clock's incredibly slow
You ask how long I've been waiting here
I think you already know

'cause I've been hanging out
And counting down
The time that I've been wasting
I've been holding on
For way too long
Your always worth
The wait though, I guess

Measure the top of the bottle
And I've had more than a few
I'm standing up to get outta here
I'm standing up for myself now
And this is long overdue

There ain't two ways about it
I can't keep letting this go
You ask how long I've been waiting here
I think you already know

'Cause I've been hanging out
And counting down
The time that I've been wasting
I've been holding on
For way too long
Your always worth
The wait though, I guess

And the promises
I promise it
You know your gonna break it
I've been holding on
For way too long
Your always worth
The wait though, I guess

Well I keep hanging out
And counting down
The time that I've been wasting
I've been holding on
For way too long
Your always worth
The wait though, I guess

And the promises
I promise it
You know your gonna break it
I've been holding on

For way too long
Your always worth
The wait though, I guess
