

Bleed

We Are the Ocean

Bleed for the money that they need
It's so full of greed
It's so full of greed

Pick up the paper
And throw it away
I'll give you respect when
I get some my way
And whatever happened to what's mine is yours, was it
all just a lie?
A picture of a perfect place shown through the lion's
eyes

They feast until you bleed for the money that they need
It's so full of greed
It's so full of greed
Feed on you till you're bone dry
It happens all the time
It happens all the time

Diamonds and champagne
It's such a disgrace
Tell me what's the point in wealth
When you keep it all to yourself
You're too scared to hurt your pride

You're making me bleed for the money that they need
It's so full of greed
It's so full of greed
Feed on you till you're bone dry
It happens all the time
It happens all the time

Are you there?
Hiding inside
Down in the grass
Is where you will lie

I've got my suspicions
I concealed your face
Painting the walls with
Your every mistake

You know I'm making you bleed
You've got nothing that I need
But you do what I please
I've got you on your knees
Feed till you're bone fuckin' dry
It happens all the time and now you are mine

Bleed
You've got nothing that I need
But you do what I please
I've got you on your knees
Feed till you're bone fuckin' dry
It happens all the time
And now you are

And now you are
And now you are mine
