

## Days

## We Are the Ocean

This has been going on for days

And I know that I shouldn't feel, shouldn't feel this way about  
her

(I shouldn't feel, I shouldn't feel this way)

And now it's you that I left tonight, now it's you who I love

So just brace yourself for this

Don't you (Don't you), (Leave out) You're desperate,

Don't you (Don't you), (Leave out) You're desperate,

And so this, is how it has to end,

I'm leaving you now,

I'm off the couch,

And I'm out of your front door,

And I'm not coming back anymore

And so this, is how it has to end.

(So just tell me) This has been

(So just tell me) Going on for days

(I know your secrets)

(So just tell me) This has been

(So just tell me) Going on for days

(I know your secrets)

And I know that I shouldn't feel, shouldn't feel this way about  
her

(I shouldn't feel, I shouldn't feel this way)

And now it's you that I left tonight, now it's you who I love

So just brace yourself for this

Don't you (Don't you), (Leave out) You're desperate,

Don't you (Don't you), (Leave out) You're desperate,

I can see that you don't need me now
