

Nothing Good Has Happened Yet

We Are the Ocean

Let me in from the rain,
Don't you let me go again
Let the water run down my face

So they say, so they say
I'm gonna take this
I'm gonna take this to the top
I'll kiss the air
Don't waste your breath, just fade away

Well okay, I guess nothing good has happened yet
Well I'll pray, that I'll be alright

Let me in from the rain,
Don't you let me go again
Let the water run down my face

You're so cold, (But I'm so alone)
You're about to fold (Just let me go) (2x)

Well okay, I guess nothing good has happened yet
Well I'll pray, that I'll be alright

You're so cold, (But I'm so alone)
You're about to fold (Just let me go) (2x)

(Well just let me go) (4x)

So they say, so they say
I'm gonna take this
I'm gonna take this to the top
I'll kiss the air
Don't waste your breath, just fade away
