

There is a diamond dancing in the dark  
And something tells me that's where you are  
So settle down before you burn out  
Hold on now, cause this is all you've got  
I'm picking up what you're putting down  
And after all this hanging around  
I understand now

Get up, be wild  
Don't let it bring you down  
I know you must feel tired  
Wake up, come on now  
Let's just have it out

I know you must feel tired  
How long since you've been wild?  
And now there is a choice you have to make  
The win or lose is just a chance we take  
So roll the dice, and if its snake eyes  
Hold on tight cause this is all you've got

I'm starting off where you started out  
And now the tables are turned around  
It was just bad timing  
Now the sun is rising

Get up, be wild  
Dont let it bring you down  
I know you must feel tired  
Wake up, inspired  
Let it all pour out

I know you must feel tired  
How long since you've been wild?  
Cause I've been thinking about you lately  
Thinking that just maybe  
We can start again

Get up, be wild  
Dont let it bring you down  
I know you must feel tired  
Wake up, come on now  
Lets just have it out

I know you must feel tired  
How long since you've been wild?  
How long since you've been wild?
