

Thug Life

We Butter the Bread With Butter

Get up, get up!
And listen to your heart!
Don't lose yourself
and don't give a fuck!

Shut up, shut up!
You're talking like a fool!
So what ya gonna do
when your life's a fucking mess?!

This insane nation...
Save yourself, break the shell!
Escape from hell!
All these temptations...
If you're gonna let them go
we will rise tonight!

Stand up, stand up!
Don't fool yourself.
Be who you really are!
Get up, get up!
Open your eyes and fight!

All the lies...
All the faces around me...
Follow me, so you'll see the fight!
All the lies...
Falling to the ground...
Whoa!

Get up, get up!
It's time to break the walls down!
Show what you are made of!
Throw your mask away!
Stand up, stand up!
Let's raise our fists and fight!!!
[x2 - second's robotic voice]

All the lies...
All the faces around me...
Follow me, so you'll see the fight!

Get up, get up!
And listen to your heart, yeah!
Don't lose yourself!
And don't give a fuck!

Shut up, shut up!
You're talking like a fool!
So what ya gonna do
when your life's a fucking mess?!

All the lies...
All the faces around me...
Follow me, so you'll see the fight!
All the lies...
Falling to the ground...

Whoaa!
