

Zombiebitch

We Butter the Bread With Butter

There is no blood in my veins
I cannot feel any pain
I am dead full of scars
I can't drive any cars
I'm a zombie in a world
Where all brains are gone
So i'm hungry, want to eat you all and not just one
Zombiebitch zombiebitch
Walking around
You're acting like a moviestar
You get what you want
"i'm a little pretty princess
If i want it - i can have it"
You're stupid like there's no tomorrow
Super silly zombiebitch
You're a maneater
Comin' straight outta hell
Red lips meant to be kissed
But please kiss yourself
Rotten bones, dead eyes
As cold as your lies
Nobody needs you
Dead or alive
You're groaning for fame
You're a shame
It's insane
I spit on your grave
Super silly zombiebitch
Zombiebitch zombiebitch
Super silly zombiebitch
