

# Tired of Running

**We Have Band**

I won't make the same mistake  
I won't make the same mistake again

There is no game that's left to  
There is no game that's left to play

When you get tired of running  
When you get tired of running  
When you get tired of running  
When you get tired of running

Miles and miles you came  
Sweat dripping down your face  
You were hysterical

We'll make a chain of us join  
We'll make a chain of us join hands

Now that we both lost something  
Now that we both lost something  
Now that we both lost something  
Now that we both lost something

Miles and miles you came  
Sweat dripping down your face  
I asked you what was wrong  
You were hysterical

Can't change the way we're made  
Nature will nurture you  
Honesty's all you worth  
Use it to free yourself

Please help me  
It's close between nightmare and fantasy  
The way you erase all your history  
Did you really think you've got this for free?  
You worked for, you worked for it  
Please help me  
It's close between nightmare and fantasy  
The way you erase all our history  
Our history  
Our history

Don't you go misty eyed on  
Don't you go misty eyed on me

Truth is we had it coming  
Truth is we had it coming  
Truth is we had it coming  
Truth is we had it coming

Miles and miles you came  
Sweat dripping down your face  
I asked you what was wrong  
You were hysterical

Can't change the way we feel  
Nature will nurture you  
Honesty's all you worth  
Use it to free yourself

Please help me  
It's close between nightmare and fantasy  
The way you erase all your history  
Did you really think you've got this for free?  
You worked for, you worked for  
Please help me  
It's close between nightmare and fantasy  
The way you erase all our history  
Our history  
Our history

Please help me  
It's close between nightmare and fantasy  
The way you erase all your history  
Our history  
Our history  
Our history  
Your history  
Your history  
Your history  
Your history  
Your history
