## **All Again for You**

We the Kings

I couldn't sleep last night I walked alone On the beach Where we always used to go When we couldn't hook up at home

I thought of you And the time we jumped the fence Both sides ripped down We dove right in And the cops chased us again

When you were mine You know

We had it all in front of us You were the one I was in love But you always hurt the one you lost I couldn't get enough

You were everything That's bad for me Make no apologies I'm crushed... Black and blue But you know I'd do it all again for you

Today, dressed up In designer drugs Dedicated to the one I'll always love The one who really messed me up

I let you take the wheel And the driver's seat Strapped in So you get the best of me Now what's left are the memories

When you were mine You know

We had it all in front of us You were the one I was in love But you always hurt The one you lost I couldn't get enough

You were everything That's bad for me Make no apologies I'm crushed... Black and blue But you know I'd do it all again for you

I am standing in the ocean rain Rough and ready For your deadly game I've got nowhere else to go

We had it all in front of us You were the one I was in love But you always hurt The one you lost I couldn't get enough

You were everything That's bad for me Make no apologies I'm crushed... Black and blue But you know I'd do it all again for you (You know I'd do it all again for you) (I swear I'd do it all again for you)
