

All the Way

We the Kings

Yeah

You shake me up loving never taste sweet
Slip and slide inside a daydream
Come on honey we could have it all yeah
You're so on, this ones that one in a million
Drink my love until its all gone
And spend it on another till we fall

And girl I wanna go
All the way, yeah all the way
All the way, all the way
All the way, all the way
All the way, all the way

You're more than bed sunset until the morning
I fell feet first without a warning
But better late than never than never at all yeah
I kissed her, red lips sweet beneath the liquor
If she runs off I'm gonna miss her
But what a way to make me fall

And girl I wanna go
All the way, yeah all the way
All the way, all the way
All the way, all the way
All the way, all the way

I wanna go I wanna go
Singing
I wanna go I wanna go all
I wanna go I wanna go all
Singing
I wanna go I wanna go all

Girl I wanna go
All the way, all the way
All the way all the way
All the way all the way
