

Completely

We the Kings

And I always knew we would end like this.
Trading liquor with blood, bittersweet over lips
Said we fell in love with the way it hurts,
In the dripping last, slipping no but hurts.

I can't help myself for the way I feel.
Touch the plastic skin, but it feels so real.
My big grasp skin fried, and the break up done
With the meaning of love nothing, nothing much but song.

And we got close, we could almost touch.
And we got close, we can feel the rush.
And we got close only.

We are, we are the rise and fallen.
We are, we are the fire and water.
Hand on my heart,
I'll always want it all completely.
We are, we are the all or nothing.
We are, we are the bend and broken.
Whatever we are I'll always want it all completely.

She let me dance with the devil ones,
And we tried, and we tried but we couldn't come clean.
See my angel, my angel with dirty wing.
Yeah, well still she tripped in an empty street.
We were loud, we were loud while the city sleeps.
What the chemicals, poured to our drinks
Yeah we're one with the world,
Yeah we're one with the bricks.

And we got close, we could almost touch.
And we got close, we can feel the rush.
And we got close only.

We are, we are the rise and fallen.
We are, we are the fire and water.
Hand on my heart,
I'll always want it all completely.
We are, we are the all or nothing.
We are, we are the bend and broken.
Whatever we are I'll always want it all completely.

Oooh oh
Completely

And I always knew
And I al, and I al
And I always knew
And I al, and I al
And I always knew
And I al, and I al
And I always knew
We would end like this.

We are, we are the rise and fallen.
We are, we are the fire and water.

Hand on my heart,
I'll always want it all completely.
We are, we are the all or nothing.
We are, we are the bend and broken.
Whatever we are I'll always want it all completely.

And I always knew
And I al, and I al
And I always knew
And I al, and I al
And I always knew
And I al, and I al
And I always knew (completely)
And I always knew
And I al, and I al
And I always knew
And I al, and I al
And I always knew
And I al, and I al
And I always knew (completely)
