

# Immortal

We the Kings

'Cause even when your fire burns out  
And the stars in the sky all fall down  
And the world starts turning us round  
You and I are immortal  
I know one day everything stops  
But we can beat the fate of our hearts  
And we can change the words in our stars  
'Cause you and I are immortal, yeah

No one seems to talk about it  
And I know that it's hard I get it  
But sometimes I just need to hear it  
Then I could wrap my head around it  
The voices keep me up at night  
The mystery is worse than dying  
It's worse, it's worse

In my head it sounds worse to me  
Like every little thing is a catastrophe  
I wish I would never let the mind to see  
I would've processed this a little differently  
I would've said things different, not spaced or distantly  
Sat and listened not head in the kitchen  
Hugged and kissed her, loved and whispered  
Nothing I could say but just damn I miss her  
Afraid to see and afraid to not  
Afraid to lose and afraid to stop  
I was afraid to see this face to face  
Afraid to wait, to waste away the time  
Aye  
God forgive me, my greatest sin  
I couldn't say goodbye, I couldn't save the end  
But I know we will meet again

'Cause even when your fire burns out  
And the stars in the sky all fall down  
And the world starts turning us round  
You and I are immortal  
I know one day everything stops  
But we can beat the fate of our hearts  
And we can change the words in our stars  
'Cause you and I are immortal, yeah

Yeah, yeah  
Yeah, oh-whoa  
Yeah, yeah  
Yeah, oh-whoa

And the more that I think about it  
The harder that I talk about it  
I'm old enough to understand it  
We're lucky for the 36 that you were present  
It's too late in the game for that  
You should've played it when you had the chance  
One day we will meet again

'Cause even when your fire burns out

And the stars in the sky all fall down  
And the world starts turning us round  
You and I are immortal  
I know one day everything stops  
But we can beat the fate of our hearts  
And we can change the words in our stars  
'Cause you and I are immortal, yeah

Yeah, yeah  
Yeah, oh-whoa  
Yeah, yeah  
Yeah, oh-whoa
