

# Jenny's Song

We the Kings

I can't deny what I feel today  
But you feel like home and baby that's okay  
Can't deny what I feel when I'm with you  
I can't deny that you're beautiful  
'Cause you're all I need and baby that's for sure  
Can't deny what I feel when I'm with you

I finally found someone I can share my soul  
And I'm so lucky that it's you

'Cause you are my one love  
You are my only  
And everything I do  
From now on is for you  
You are my one chance  
You are my last dance  
And everything I do  
From now on is for you

I can't believe where we are today  
But it came so fast and baby that's okay  
Can't believe what I feel when I'm with you  
I can't believe that you are my girl  
No I won't let go and baby that's for sure  
Can't believe what I feel when I'm with you

I finally found someone I can share my soul  
And I'm so lucky that it's you

You are my one love  
You are my only  
And everything I do  
From now on is for you  
You are my one chance  
You are my last dance  
And everything I do  
From now on is for you  
It's all for you

And oh...  
And oh...

You are my one love  
You are my only  
And everything I do  
From now on is for you  
You are my one chance  
You are my last dance  
And everything I do  
From now on is for you  
It's all for you [4x]
