

Party, Fun, Love & Radio

We the Kings

Kids wake up
And ride your dreams until the sun comes up
The night is young and we're a hundred guns
Locked and loaded aiming to the sky, the sky

Because we're about to break break break
Break it out
And we're about to shake shake shake
Shake this town
We're about to break break break
Break it out
Tonight

It's all about party, fun, love and radio
We just gonna smash these walls until they fall
It's all about party, fun, love and radio
Our time is running out, baby all we have is now

Kids go wild
Let's run the streets and set the night on fire
We're blowin' smoke so high a thousand miles
Taking off and flyin' through the sky, the sky

'Cause we're about to break break break
Break it out
And we're about to shake shake shake
Shake this town
We're about to break break break
Break it out
Tonight

It's all about party, fun, love and radio
We just gonna smash these walls until they fall
It's all about party, fun, love and radio
Our time is running out, baby all we have is now

Shout out to all them girls who gettin' down down
Shout out to all my boys who gettin' loud loud
Shout out to all them gents who want it now now
We want it now now
We want it now now

Move this way, I'm so turned up
So many drinks, I'm washed up
Congressman, this Project X
Sippin' shots then I'm on to the next
Smashin' walls, feel the beat
I'm fire burning, hot street
Then I'm out, WTK it's all what we got

It's all about party, fun, love and radio
We just gonna smash these walls until they fall
It's all about party, fun, love and radio
Our time is running out, baby all we have is now

Party, fun, love and radio
We just gonna smash these walls until they fall

It's all about party, fun, love and radio
Our time is running out, baby all we have is now

And baby all we have is now
And baby all we have is now
Baby all we have is now
