

# Skyway Avenue

We the Kings

She said lets change our luck  
This night is all we got  
Drive fast until  
We crash this dead-end life  
Sweet dreams that won't come true  
I'd leave it all for you  
Brick walls are closing in  
Let's make a run tonight

Blinded by the lights  
Hold you through forever  
Won't let you go  
'Cause if you jump I will jump too  
We will fall together from the buildings ledge  
Never looking back at what  
We've done  
We'll say it was love  
'Cause I would die for you on Skyway Avenue

She said don't change your mind  
Let's leave this town behind  
We'll race right off the cliff  
They will remember this  
It all got so mundane  
With you I'm back again  
Just take me by the hand  
We're close to the edge

Blinded by the lights  
Hold you through forever  
Won't let you go  
'Cause if you jump I will jump too  
We will fall together from the buildings ledge  
Never looking back at what  
We've done  
We'll say it was love  
'Cause I would die for you on Skyway Avenue

Where are your guts to fly?  
Soaring through, through the night  
And if you take that last step  
I'll follow you  
Leave the ledge and fly  
We're finally alive

Cause if you jump, I will jump too  
We will fall together from the buildings ledge  
Never looking back at what we've done  
We'll say it was love  
Cause I would die for you on Skyway Avenue  
So what's left to prove  
We have made it through
