

Somebody to Call My Own

We the Kings

I woke up with a headache
From a night I won't forget
I close my eyes cause this ain't over yet
Brooklyn bowl, I lost control
Then knocked down all your pins

Cause I just want to leave with you
You'd rather be alone
It's a long
Walk home

When somebody loves, somebody falls
You're driving me crazy, you don't know
When somebody stays, somebody goes
Sometimes it's only lonely roads
So don't say goodbye
I can't close my eyes
I'm spinning around inside
When somebody rocks, somebody rolls
I just need to find
Somebody to call my own
Singing whoa, oh, oh-oh, oh

I woke up with the taste of you
Tattooed on my lips
It's so messed up, I can't recall the kiss
Hand grenade got blown away
When you pulled out the pin

Cause I just want to leave with you
You'd rather be alone
It's a long
Walk home

When somebody loves, somebody falls
You're driving me crazy, you don't know
When somebody stays, somebody goes
Sometimes it's only lonely roads
So don't say goodbye
I can't close my eyes
I'm spinning around inside
When somebody rocks, somebody rolls
I just need to find
Somebody to call my own

My only one,
If I've come undone
Would you sew me up?
If I'm broken down
Would you stand your ground?
And fall in love
With me?

When somebody loves, somebody falls
You're driving me crazy, you don't know
When somebody stays, somebody goes
Sometimes it's only lonely roads

So don't say goodbye,
I can't close my eyes
I'm spinning around inside
When somebody rocks, somebody rolls
I just need to find
Somebody to call my own
