We the Kings

Dear Bradenton You have been good to me You've kept your word And got me through these years And All I ask Is that you'll be here When I return To share arms In what we have leanred For so long these streets were my home Dear Bradenton As the city sleeps the night You found us hiding out Under parking garage lights And you know You know you'll find us here When we return From Anna's isle to Eastern feilds This is our town This is who we're meant to be This is our town Where our roots have grown so deep This is our town This is where we're meant to be This is our town We'll keep coming back because ... This is our town This is our town This is our town (What are we running for? ) This is our town (What are we running for? ) This is our town (This is our town) Dear Bradenton As I gently close my eyes I hear you whisper softly As we continue our goodbyes And all I ask Is that you'll be there When we return Cause this is our town This is who we're meant to be
