

You and Only You

We the Kings

Every single day I wake
I just can't wait to see your face
Are you looking back at me

And every moment that goes by
I am waiting for a sign
Think of you and I'm alright
Did you think of me tonight?

You and only you
You make my heart feel like you're pulling every string
You and only you
You make me drop down to my knees and give this ring
My everything

Baby once upon a time
There was a million stars up high
Now you're the only light I see

And I don't care which way we go

Teach me everything you know
Everything a love should be
So baby just believe

You and only you
You make my heart feel like you're pulling every string
You and only you
You make me drop down to my knees and give this ring
My everything

Don't be long
Cause when you're far away
It's a house of memories
Say you'll come back home
For me for good

You and only you
You make my heart feel like you're pulling every string
You and only you
You make me drop down to my knees and give this ring
My everything
