

Machine

We Three

Cigarettes in the ashtray
And sleeping through the afternoon
Still don't wanna stay at your place
Cause you always think I leave too soon
I'm not the type to fit in, I'm not the type to stand out
I know you wish I'd see it your way
And there's days I wish that I did too

I'm kinda thinking I should go now
I can feel it heating up
Just thinking bout it gets me nervous
Damn it's just too hot to touch

I don't wanna be a part of your
I don't wanna be a part of your
I don't wanna be a part of your
I don't wanna be a part of your machine
I don't wanna be a part of your
I don't wanna be a part of your
I don't wanna be a part of your
I don't wanna be a part of your machine

I don't wanna show you my face
Cause you'll just wanna change it too
From lips to my eye lids
All you ever wanna do is improve
I'm not the type to speak up, I'm not the type to shut up
I think you think I could be perfect
Just to fit in to your little gear too

I'm kinda thinking I should go now
I can feel it heating up
Just thinking bout it gets me nervous
Damn it's just too hot to touch

I don't wanna be a part of your
I don't wanna be a part of your
I don't wanna be a part of your
I don't wanna be a part of your machine
I don't wanna be a part of your
I don't wanna be a part of your
I don't wanna be a part of your
I don't wanna be a part of your machine

Part of your machine

A true nine to five on a Tuesday
Eleven hundred people on a Wednesday
Sleepin' all day on a Thursday
And probably gettin' drunk on a Friday
Just tryin' to do more of a Wednesday
Cause people seem to like the things that I say
Like we're all messed up, but it's okay
Scream this till we make all our lungs brake

Let's go!

I don't wanna be a part of your
I don't wanna be a part of your
I don't wanna be a part of your
I don't wanna be a part of your machine
I don't wanna be a part of your
I don't wanna be a part of your
I don't wanna be a part of your
I don't wanna be a part of your machine!

I'm kinda thinking I should go now
I can feel it heating up
Just thinking bout it gets me nervous
Damn it's just too hot to touch
Part of your machine!
I'm kinda thinking I should go now
I can feel it heating up
Been thinkin' bout it I don't wanna
Be a part of your machine
