

Us

We Three

What the hell happened to us
Used to yell, but now we don't even touch
Wish we could feel this,
Yeah really feel this,
But I know that we're way past feelin'
What the hell happened to us

Is he six foot five
Or is he not that tall
Is he wondering why
Why you haven't called

Do you look at me
And only think of him
When you're touching me
Do you feel his skin

Now when we say those words
We don't hear a sound
Now we both prefer
To keep em in our mouth

What the hell happened to us
Used to yell, but now we don't even touch
Wish we could feel this,
Yeah really feel this,
But I know that we're way past feelin'
What the hell happened to us

Does he say sweet things
Does he wear tight jeans
Has he bought a ring
Or is this all bad dreams

Do you only bring me up whenever you can feel the cut
Yeah, do you only think of me right after he has gone to sleep

Now when we say those words
We don't hear a sound
Now we both prefer
To keep em in our mouth

What the hell happened to us
Used to yell, but now we don't even touch
Wish we could feel this,
Yeah really feel this,
But I know that we're way past feelin'

What the hell happened to us
