

## What I Know Now

## We Were Promised Jetpacks

For the record I had given up  
Decided I'm not good enough  
I wish that I knew better  
I wish I knew what I know now

For the record I had told my truth  
And it didn't look quite right on you  
I don't think you believed in me  
Cause I could not believe in you

In the time it takes to learn what makes us feel different  
You could find some space and make some room I could wiggle in

For the record I was set in stone  
There's no one knocking down my door  
There's no one checking in on me  
There's no one checking out at all

In the time it takes to learn what makes us feel different  
I could find a space and make some room you could wiggle in

For the record I had given up  
Decided I'm not good enough  
I wish that I knew better  
I wish I knew what I know now
