[Verse 1]

I been smoking since the sixth grade kill it in the bathroom
Teacher wasn't tripping she just put me out the classroom
We was smoking residue and whatever we had to
To get another bag of that gag and some fast food
Couldn't roll the best blunts I ain't go lie
But the clique wasn't tripping long as we got high
Graduated to some papers and a few four fives
None of us crossed the stage but we still got by
Had to hustle had to grind turned a nickel to a dime
Now i keep it in the air by pound at a time
I fucks with a few niggas don't smoke with new niggas
And i burn i'm that killer man Snoop Dogg chillin'

Little did she know i had a big bag of dope
But i wouldn't try to share it with no one
In the kitchen in the kitchen

Cause it takes one to know one
So grow one off and running
Stunting , a villain and dealing the four [?]
The money live dripping from the sky
Fucking with the fire and the fire got him hella high
Let it go, now pull it back
Put it in the air with the aphrodisiac
In the cadillac rollin with my nephews
Step to bless you, or nigga F you
