

A Man Out Of Me

Weeping Willows

It's hard to be good
It's hard to be the man I am when I'm in dreams
Escape is a drug
A drug that I use

It's hard to walk straight
It's so hard to have the strenght of character I need
To build up a man
A man out of me

Fear and love will change a man
Fear and love will break a man, I know
Fear and love will make man
A man out of me
(You'll grow for every little step of the road you're
on)
A man out of me

It's hard to be good
It's so hard to be the man that I would like to be
To swallow the pride
To put things aside

It's hard to be kind
It's so hard to smile when all around me there is dirt
Revenge is a drug
A drug I abuse

Fear and love will change a man
Fear and love will break a man, I know
Fear and love will make man
A man out of me
(You'll grow for every little step of the road you're
on)
A man out of me
