

Take Me There

Westlife

We used to drive all night in your father's car
Used to get lost in time, where did it all go wrong?
We used to kiss all night staying up till the dawn
Used to get lost in time, where did it all go wrong?

Standing on the mountain, can you hear me call?
Don't wanna lose it all tonight
Standing on the edge, baby, just you and I
Don't wanna say goodbye
Don't say goodbye

So one last time
Will you hold my hand?
There's a happy place
Won't you take me there?
I know there's love
In a heart somewhere
If you know the way
Won't you take me there?
If you know the way
Won't you take me there?

We used to dance all night in your favorite bar
Yeah, it was real good times, where did it all go wrong?
We used to touch all night, staying up till the dawn
Used to make love in the dark, where did it all go wrong?

Standing on the mountain, can you hear me call?
Don't wanna lose it all tonight
Standing on the edge, baby, just you and I
Don't wanna say goodbye
Don't say goodbye

So one last time
Will you hold my hand?
There's a happy place
Won't you take me there?
I know there's love
In a heart somewhere
If you know the way
Won't you take me there?
If you know the way
Won't you take me there?
Oh-oh

Yeah-oh-oh-oh
Whoa-oh
Whoa-oh-oh
Yeah-oh-yeah

Standing on the mountain, can you hear me call?
Standing on the edge, baby, just you and I

One last time
Will you hold my hand?
There's a happy place
Won't you take me there?

I know there's love
In a heart somewhere
If you know the way
Won't you take me there?

So one last time
Will you hold my hand?
There's a happy place
Won't you take me there?
I know there's love
In a heart somewhere
If you know the way
Won't you take me there?
If you know the way
Won't you take me there?
