

Body

Wet

How come no one never told me, told me
Being so lonely feels so lonely
I'm sure that no one loves me, loves me
Really loves me, loves me, loves me
I asked you just to hold me, hold me
Hold me tightly, hold my body
I said that no one loves me, loves me
Like you love me, love me, hold me

Our love is dangerous
We fill the space with us

No one said it would be easy
But I never knew I'd be so lonely
Now I have you here to hold me
Make me forget I have a body
No one said it would be easy
I never knew I'd be so lonely
Now I have you here to hold me
Make me forget I have a body

Happy in your arms
Twist until we fall apart
I feel like no one loves me, loves me
Really loves me, love me, love me
I said that no one loves me, loves me
Like you love me, love me, hold me

These hands are dangerous
We fill the space with us
Our love, our love, our love, it labors
We twist and shake and moan and take, we're faced with us

No one said it would be easy
But I never knew I'd be so lonely
Now I have you here to hold me
Make me forget I have a body
No one said it would be easy
I never knew I'd be so lonely
Now I have you here to hold me
Make me forget I have a body

Meet me on the yard
You could be a star
Hold me in your arms
Shake me 'til I fall apart

No one said it would be easy
But I never knew I'd be so lonely
Now I have you here to hold me
Make me forget I have a body
No one said it would be easy
I never knew I'd be so lonely
Now I have you here to hold me
Make me forget I have a body
