Don't Wanna Be Your Girl

I don't wanna be your girl no more No more I just wanna see your face at home Home You can't do me right So I decide that I don't wanna be your girl no more No more I just wanna see you up and out Out of the door I'm not living right So I decide that

I don't wanna be your girl no more No more

I won't hide the ways I've tried It's just not right It's killing me tonight
