

On Your Side

Wet

Like the sun carries the moon
When the wind blows I shelter you
Like two rivers running in a line
Like I told you, I'm on your side

So hot and cold
Too fast too slow
It's all for show

Baby trust me
I'm not your enemy
I'm on your side
Baby believe me
I'm on your side
No ones leaving
I'm on your side
Baby believe me
I'm on your side

Like the loon resting in the palms
With my arm in your arm
Looking straight ahead
And in stride
Like I told you
I'm on your side

So hot and cold
Too fast too slow
It's all for show

Baby trust me
I'm not your enemy
I'm on your side
Baby believe me
I'm on your side
No ones leaving
I'm on your side
Baby believe me
I'm on your side

Day by day by day
Watch you take your love away
Day by day by day
Watch you move further away

Day by day by day
Watch you take your love away
Day by day by day
Watch you move further away

So hot and cold
Too fast too slow
It's all for show
Baby trust me
I'm not your enemy
I'm not your enemy
