

You're the Best

Wet

All I know is
When you hold me
I still feel lonely
Lonely when you hold me

All I know is
I can't forget
Hold these arms around me
Think of how you found me
Found me in those arms
So large and dark and holding on

All I know is
When you hold me
Are you thinking Rosalie
Or is she in me?
Another vase

But, baby, you're the best
We'll figure out the rest
And maybe it's a test
I think we bought ?

All I know is
When we're sleeping
Are friends, they creeping
And all the rest
All I know is
You hardly know me
But you still love me
And all the rest

But, baby, you're the best
We'll figure out the rest
And maybe it's a test
I think we bought ?
