

What Everyone Keeps Telling Me

Wheat

Where'd you go?
What place?
Was it really where you wanted to be after all?
Where'd you learn that face?
She never used to stand so tall
You better use it or you're gonna lose it
Where'd you go?
What place?

Was it really where you wanted to be after all?
Where'd you learn that face?
She never used to stand so tall
You better use it or you're gonna lose it
Everyone keeps telling me that
but I don't think I'm gonna use it
half a mile or so
either way, outside of our house
it's where the river runs cold
and the desert lies free and easy
and i'm not free and easy
