

Snow

Whipping Boy

We're flying, hand glider, safe riding
And it's not what it seems in the snow
Safe in silence, precision timing, then you scream
And it's not what it seems in the snow

Roll your head around, in the snow (3x)
Rolling your head, in the snow

Slow riding, flash addict, then you scream
We've the finest time in the snow
Jack flying, hang gliding, on your seat
We've the finest time in the snow

Roll your head around, in the snow (3x)
Rolling your head, in the snow

In the snow (repeat to fade)
