

## Breathe

Whiskeytown

Say no, say something, say anything  
So that you can believe it yourself  
Believe it yourself  
Try again, try harder  
Try to think of something so you can believe it  
yourself  
Believe it yourself  
But breathe some sense into me  
What I need is for someone to believe  
You win, win nothing  
You take anything so that you can believe it yourself  
Believe it yourself  
So try again, try harder  
Try to think of something so you can believe it  
yourself  
Believe it yourself  
But breathe some sense into me  
All I need is for someone to believe in me  
Say anything, do what you need  
So that you can believe  
Believe in me  
But breathe some sense into me  
All I need is for someone to believe in me  
Say anything, do what you need  
So that you can believe  
Believe in me  
Believe in me  
1,2, fuck you!
