

# Come Back

White Denim

It's always spring in my neighborhood and my door will always be open.

Stop in if your'e feeling good or stop in if your'e broken.

Every Monday it's Easter Sunday and the flowers are all in bloom.

Even when it gets crowded we're gonna find you a little extra room.

You can come back.

You can come right back.

You can you can come back.

You can come back anytime.

I know that you've been around the world and you know that I've done that too.

If you've had enough of that loneliness we're giving something you could surely use.

Shufflin', Laughin', and Mumblin' isn't that something?

Wouldn't you rather be here?

You could show up whenever you like to but you should try to get here soon.

Sometime your'e gonna have to leave.

You can come back.

You can come right back.

You can you can come back.

You can come back anytime.
