

High Roller

White Wizzard

Roll the dice - Feelin' good tonight
Loaded and high rollin'
Blackjack gun - shootin' 21
Whiskey river flowin'

Roll through town like a stone
Playin' another show
On the run - A demon's son
Comin' to steal your soul!

Shooting stars blastin' through your town
Fueled by the devils fire
Light the sky - Now we're gunna fly
Fills you with desire

Rollin' through the night

Good times metal blasts away
Ready to take over
In your head flames burning red
Spell taking you over

In a trance - You start to dance
I'll be your star tonight
Taste my sin - Crank it up to ten
Until the morning light

Shooting stars blastin' through your town
Fueled by the devils fire
Light the sky - Now we're gunna fly
Fills you with desire

Come the dawn I have to go
But I'm still lovin' you
Songs entranced - Deep in your mind
A spellbound witches brew

In my dreams - I'll see your smile
Burnin' like a flame
I'll be back again next year
Callin' out your name

Shooting stars blastin' through your town
Fueled by the devils fire
Light the sky - Now we're gunna fly
Fills you with desire

Rollin' through the night (4x)
