

# Lightning in My Hands

White Wizzard

I was born of stormy skies  
Power of life burned in my eyes  
Now destined to rule the night

When I touched the magic string  
Power to make my spirit ring  
Now I hold the light

It's like lightning in my hands  
An electric sun and steel  
To blaze across the stars  
Life is all I feel

Musical boxes chiming sounds  
Amplified energy underground  
I am inspired to stand and rise

Now I ring the magic chord  
Rock the metal overlord  
God in every note I play

My fingers tap the rocket fuel  
Ignite the fire in me and you  
Ringing light into the darkest day

It's like lightning in my hands  
An electric sun and steel  
To blaze across the stars  
Life is all I feel

Magnetic pulse in a silver sun  
Bringing light to everyone  
Sun in my hands guides the way

It's like lightning in my hands  
An electric sun and steel  
To blaze across the stars  
Life is all I feel

Musical boxes chiming sounds  
Amplified energy underground  
I am inspired to stand and rise
