

Now

Whitecross

Our God is not gonna drag us
Our God is not gonna oush
He knows what it takes to get to you.

Our God is there to heal us
Our God is here to restore
He sees all the little things we do

Now!
I gotta start
Now!
I'm gonna say it out loud
Now!
I'm gonna run to the one who loves me

Our God will not betray us
Our God is not gonna leave
He hears when we cry to be set free

Our God is there to protect us
Our God is here, oh I know
He'll do the same for you, what he did for me

Ow, yes!
Now!
Gonna scream it out loud
Now!
He died for me
Now!
I'm gonna live for him
Now!
I've lost all fear of eternity

When all your fears fall on you
You know there's hell to pay
When all the years of sinning
His blood will wash away
