I'm getting ready I'm in the mood to fool around It's time for action Now the boys are back in town So turn up the music Make it loud and proud Let's see reaction Let the spotlite hit the crowd Don't hide what you feel inside Don't let anybody stand in your way Just let the music take you higher Now are you ready to rock Children of the Night Are you ready to roll Children of the night You got the fire I feel your fire in my soul You got the fever Cos you were born to rock an' roll Don't run for cover I'm gonna show you what I've learned Just come a little closer Come on an' get your fingers burn Don't hide what you feel inside Don't let anybody stand in your way Just let the music take you higher Now are you ready to rock Are you ready to roll Are you ready to rock Now are you ready to rock Children of the Night Are you ready to roll Children of the night I'm getting ready I'm in the mood to fool around It's time for action Cos now the boys are back in town Don't hide what you feel inside Don't let anybody stand in your way Just let the music take you higher Now are you ready to rock Children of the Night Are you ready to roll Children of the night
