

# Lightweight

Whitney Duncan

I can go out, know how to hit the town  
Drink all night, still be in my night mind  
I can stay in every now and then  
Sippin' in my bed on a bottle of red  
I can have a good time and still be good to go  
But when you come around, I lose all control 'cause

I'm a lightweight, messed up in a minute  
Can't think straight, heart gets to spinnin'  
Like I had a few too many and I couldn't stop  
You're smoother than whiskey when it's on the rocks  
I hate how you're such a habit that I can't break  
But boy I gotta have it  
You instantly intoxicate, all it takes is just a taste  
Can't lie  
Can't lie  
I'm a lightweight

I love waking up still feeling kinda drunk  
On that last kiss you left here on my lips  
Couldn't walk a straight line with you on my breath  
Might be over the limit but I haven't had enough yet

I'm a lightweight, messed up in a minute  
Can't think straight, heart gets to spinnin'  
Like I had a few too many and I couldn't stop  
You're smoother than whiskey when it's on the rocks  
I hate how you're such a habit that I can't break  
But boy I gotta have it  
You instantly intoxicate, all it takes is just a taste  
Can't lie  
Can't lie  
I'm a lightweight  
I'm a lightweight

Baby, you know how to hit me just the right way  
What can I say?

I'm a lightweight, messed up in a minute  
Can't think straight, as heart gets to spinnin'  
Like I had too many and I couldn't stop  
You're smoother than whiskey when it's on the rocks  
I hate how you're such a habit that I can't break  
But boy I gotta have it  
You instantly intoxicate, all it takes is just a taste  
Can't lie  
Can't lie  
I'm a lightweight  
I'm a lightweight
