

Hotel Arizona

Wilco

Hotel in Arizona made us all wanna feel like stars
Rental cars and tinted windows, leave another number for me
Even if I make it through
That's just something that I have to get used to
That's just something I have to get used to
I feel some connection between you and me
Well I guess there's some direction maybe you can't see
Even at the interview, that's not something that I'm gonna get u
sed to
That's not something I'm gonna get used to
Hello, can you hear?
Hello, that's all there is, that's all there is
I guess all this history is just a mystery to me
One more worried whisper right in my ear
