

Love Underneath My Thumb

Wild Nothing

In the same time and space
I can't seem to rearrange
Love underneath my thumb
Trying to have someone

Under cathedral arms
Dropping the ball again
To see what it means to you (ooh calm down, baby)

I feel it comin' around
I don't know why it moves me
Playing our games on
Every floor in Irving

The mouth of Old China sings

Lace made of mercury

Lost in the frozen can (ooh calm down, baby)
Somewhere in that great eye (ooh calm down, baby)

I feel it comin' around

I don't know why it moves me
Playing our games on
Every floor in Irving

I was blind
I was blind
But trying to see you makes me feel better

I feel it comin' around
I don't know why it moves me
Playing our games on
Every floor in Irving

I feel it comin' around
I don't know why it moves me
Playing our games on
Every floor in Irving

Ooh calm down, baby
Ooh calm down, baby
Ooh calm down, baby
Ooh calm down, baby
