

# The World is a Hungry Place

Wild Nothing

There are things  
You won't get told  
I've seen what love  
Can do to us all  
Failure of breath  
Or a cosmetic scratch  
One deep pull  
From the laughing gas

The world is a hungry place  
The world is a hungry place  
The world is a hungry place  
The world is a hungry place

Never been one  
For making the rounds  
An overcast life  
In a colonial town  
I've seen myself  
It's the manlier thing  
And my appetite grows  
And I've seen it around

The world is a hungry place  
The world is a hungry place  
The world is a hungry place  
The world is a hungry place
