## **The River**

Wild Orchid

Moving on baby I went to the river, thinkin bout jumpin in Thinkin about your ways baby Trying to forget how to swim

As I stood there, watching the train go by Oh what a message - that's when I realized

Oh baby, is it gonna last very long Look at the river and how it keeps movin on Oh baby, what we had is almost gone Look at the river and how it keeps movin on

Movin on Would you just look at the river Movin on

My emotions move with the current and the wind No direction, and no definite end That's when I realized how the ripples in the water seemed to shine Reminds me of you and I baby, at one point in time

And just like a river - like a river flowin - into a waterfall (Stef and Ren ee) After falling are we movin on -inside I feel - I can feel it flow

Oh baby, is it gonna last very long Look at the river look at it how it keeps movin on and movin on Oh baby, what we had is almost gone Look at the river and how it keeps movin on

Under the train bridge - it keeps movin on Goes round to the whirlpool - it keeps movin on No still waters baby, are gonna hold me down And all I wanna know is - are you comin with me

I have got to keep moving on Moving on yeah Moving on I said Moving on

Oh baby, is it gonna last very long Look at the river look at it how it keeps movin on and movin on Oh baby, what we had is almost gone Look at the river and how it keeps movin on

Moving, moving moving, moving Mould you just look at the river

Moving on Moving on I said

Moving, moving moving moving, moving baby moving, moving Would you just look, look at the river

Moving on Moving on I said
