

When I stepped in the scene I was always  
Gonna get achievement to my whole ways  
I fought music everyday all day  
Flew out to UK, got a blank CD  
Sheep from a traveler  
Bitch I was stable  
Here we go man never on the table  
I've came a long way for my plain cheese bagel  
Used to go big real quick any time of the week  
Have you got to be livin it to speak it  
Have you got in it if you peeking  
Have you gotta be awake when every one is sleeping  
Getting double I was in no sleep  
Get my CD to solo it's lonely  
But then again I'm like nobody owes me  
To lead or to cry tryin all key  
I don't get into what don't involve me  
I ain't nosey

Time flies when you wanna help everybody  
Turn around now look at your anybody  
Turn it round don't look I'm a somebody  
One spirit, one brain, one body  
One heart, one ending, one start  
Skips a beat when you hear a gun spark  
Our safety's never been an option  
That's why we took the other option  
Only have a side of the lower back  
This scar only have a side on my draw  
Couldn't lead me astray, based in a cage  
My time is a healer  
Erase the waste, erase the bad vibe  
I ain't perfect but I'm not bad man  
Every dog has a day  
That's why I ain't frontin'  
Like I never had money

Respectful how I was raised  
You ain't gotta sing my praise  
I know the Lord awaits me  
So let me live for the rest of my days  
Guide the lost in the journey  
I told him once he never heard me  
I was like them hard headed  
Can't be living off all my past merits  
Respectful how I was raised  
You ain't gotta sing my praise  
I know the Lord awaits me  
So let me live for the rest of my days  
Guide the lost in the journey  
I told him once he never heard me  
I was like them hard headed  
Can't be living off all my past merits
