

# Got Somebody

Wiley

Yo, okay  
I've got somebody now, I've got somebody now  
I've found somebody now  
I've got somebody now  
Yo, okay  
Look

I'm gonna miss it but I'm quitting the game (yeah right)  
I mean it no more being sly (yeah right)  
I swear that I'm the one for her (yeah right)  
I wanna settle down now (yeah right)  
I know about commitment (yeah right)  
My head is screwed on tight (yeah right)  
I got this gyal I like a lot now (yeah right)  
I think that she likes me a lot too (yeah right)  
It true, I'm just being straight up (yeah right)  
I'm gonna try and make it work out (yeah right)  
I think it's time that I've a pen too (yeah right)  
I think it's time to show you, us two were meant to  
Set to each other from before, I saw this gyal  
From before she caught my eyes, from before it's not new  
Plus she rescued me from the coldest moment in my life  
This moment, it was so cold I could've took another life  
But...

[Chorus]

I've got somebody now (I've got somebody now)  
I'm sure about this, yo I'm gonna make it work out  
And she's my other half (and she's my other half)  
This is it, I'm stopping it now I'm not a player yo  
I've got somebody now (I've got somebody now)  
I'm sure about this, yo I'm gonna make it work out  
And she's my other half (and she's my other half)  
This is it, I'm stopping it now I'm not a player yo

I'm sorry now I've got a key around my neck  
I know I'm sly, I know I'm grimy but I'm taken  
I'm set to forget you  
I'm concentrated, now I've gotta get through  
I'm set to take this game by storm and make some money through this  
I do this, cause I was chosen to come and do this  
I know her, cause I was chosen to come and know her  
Plus she can show me things, and again it's better if I show her  
It's obvious that he's a player, so more for her

I hate her, she thinks she's so nice  
Come on gyals, that's ain't nice  
You're acting jealous  
If you say to them gyals, they'll tell us  
And anything that you say to them, they'll come and tell us  
Forget us, we tryna live, down to earth is how we live  
I'm hoping you get bored and let us live  
I'm hoping, you get on with your life and let us live  
I'm hoping you wake up and be yourself and let me live  
I'm tryna live my life so can you please let me live

I've got somebody now (I've got somebody now)

I'm sure about this, yo I'm gonna make it work out  
And she's my other half (and she's my other half)  
This is it, I'm stopping it now I'm not a player yo  
I've got somebody now (I've got somebody now)  
I'm sure about this, yo I'm gonna make it work out  
And she's my other half (and she's my other half)  
This is it, I'm stopping it now I'm not a player yo

I saw Wiley in the West End with three gyal in his car  
And someone told me that Wiley used to go out with Hailey  
Wiley is a name brand, I cannot sell, my name carries stories  
I'm from the east but everybody hears stories yo  
I'm not an angel but  
You hear stories that get made up and put up to try and tarnish my name  
While I'm out here tryna big up my name and get a little fame  
People travel round and try and slander my name  
But...

I've got somebody now (I've got somebody now)  
I'm sure about this, yo I'm gonna make it work out  
And she's my other half (and she's my other half)  
This is it, I'm stopping it now I'm not a player yo  
I've got somebody now (I've got somebody now)  
I'm sure about this, yo I'm gonna make it work out  
And she's my other half (and she's my other half)  
This is it, I'm stopping it now I'm not a player yo
