

# Humble Pie

Wiley

She ain't calling me again though (haha)  
Pinged us as well though  
And them peng ones (jesus)

We were close, felt special  
She was telling me she was ready to settle  
I said I feel the same way too  
Went to meet her the same day too  
It's not easy finding the right one  
Then messing it up like I've done  
That's wasting time, I can't take it  
Come on make a promise, then shortly break it  
She began to feel quite sad  
I began to feel quite mad  
Cause it burns me to know I might not change  
Got too many women on the brain, I'm going insane  
Got to slow down, let her fly cause I don't wanna slow her down  
If I do it any more I'll be feeling the pain  
It's not what I want so I've gotta go away  
And away I'll stay  
Nobody likes being alone  
I might be up all night on the phone  
And this girl's telling me how she wanna come and sit right down in my zone  
The one that I found is cold  
Icy blue eyes rest in face  
We got not no ties so we can have fun every night, let's ride  
She wants Nando's, I want Chinese  
I'm a capricorn, She was a pisces  
We used to go river-side sightseeing  
We had a well nice drink with black cheese  
Let the night breathe, I feel lively  
She wants to be with Kylie  
We like to spend time on a friday  
Any time you want to see my babe, dial me

Drank too much wine, in a short space of time I'm lagging  
Some people don't want us to have a good time babe, but that's what we're having  
Whether they like it or not we are bonding  
Whether they excited or not we might be meant for each other, whether we fight it or not  
Lately I've been a bit all on my A game  
In the studio I don't play games, ask her  
See her two times in eight days then I might not see her for another eight days  
Cause I wanna find these vibes that I find when I'm looking  
She knows I'll share the cake that I'm cooking  
It's all me and her, nobody else gonna get a look in

My pattern is ready for new ways  
I was on one song, steady for two days  
I get countless vibes through the haze  
Check the radio's when I get plays  
And I get praise, all well deserved  
And this energy was too well preserved  
And I told my mum I'd do well for her  
I feel life dragged her through life, she's hurt

Stay alert in the world, it's a must  
No trust and we gotta blame us  
When it's all done and dusted it's dust  
And we can't live on the crust of a crust  
We decided not too, Cause of hard work this is where we got too  
If you really wanna win nobody can stop you  
What you can achieve might even shock you  
All runaway stuff like samples  
Set examples, I'm building castles  
While I got a brother on role passing parcels  
Close fam' I love, I've got a heartful  
No doubt, I'm gonna break the cycle  
Smile on the face for heatwave, delightful  
Catch them easy hooks, they're reciteful  
Bv-care the team we're vital  
We're vital (2x)  
Bv-care the team we're vital
