

# Lights On

Wiley

Even though you don't know  
Even though you don't know  
Even though you don't know my name  
Me and you bleed exactly the same  
I smile and come across I'll tame  
A hundred volts take your life ain't a game  
I switch them lights off, yeah, yeah, yeah  
Hey, DJ turn them lights off, yeah

She got a light switched on  
My lights switched on  
She looking in my eyes like I like this don  
I wanna know what side she's from  
I see many girls but I like this one  
Told me she was a west side lady  
Had a few friends but they were all shady  
Now she on the solo ting  
So nobody can't send her crazy  
Too many friends and not enough true friends  
Made her wanna go and move to a new ends  
I care though, 'cause even if my life gets lonely  
It's all good, to keep few friends

We connected I asked her out and then she accepted  
I think she gets it  
When the end of the night comes  
Me and her leave for the exit

Even though you don't know my name  
Me and you bleed exactly the same  
I smile and come across I'll tame  
A hundred volts take your life ain't a game  
I switch them lights off (When the end of the night comes)  
Yeah, oh, DJ turn them lights off (I like this one)  
Yeah

Everywhere we go we about to have fun  
Take care of me we're gettin' the job done  
She keeps my mind calm getting a lot done  
I know it's all new but it feels so long  
On first sight I wanted to be acquainted  
People gonna see us out think that we're dating  
And we don't know where we even wanna take it  
But we got a good bond and I don't wanna break it

We connected I asked her out and then she accepted  
I think she gets it  
When the end of the night comes  
Me and her leave for the exit

Even though you don't know my name  
Me and you bleed exactly the same  
I smile and come across I'll tame  
A hundred volts take your life ain't a game  
I switch them lights off (When the end of the night comes)  
Yeah, oh, DJ turn them lights off (I like this one)  
Yeah

DJ hit up the switch already  
Turn the lights on, Beyonce  
We're not quite there but I must say  
I like the dimples on that face  
Yeah, I like them tats on her rib cage  
On, that sexy dress the only part that's revealing yes  
That's why I'm respecting her  
Rejecting them and selecting her strength

Anywhere we go we're bound to have fun  
You take care of me, we're getting the job done

I switch them lights off, yeah, yeah,  
Oh, DJ turn them lights off, yeah, yeah,

When the end of the night comes  
Me and her leave for the exit
