

I was on point when I made The Elusive  
Mum told me, "Stop makin' excuses"  
I'ma drop my album on fans exclusive  
Do it for my people, they say I'm lucid  
People tell me they only want true shit (no lie)  
Tell a man don't take the food if you know you can't move it (leave that the re)  
I'ma drop my album on fans exclusive (that's right)  
I do it for my people, they say I'm lucid

All these days in a month  
Tryna get everything done  
When I try do too much  
I don't get anything done  
Rollin' through like a bulldozer  
I go hard, here I go, here I come  
Now when I think about what I wanna do  
I wanna do what's never been done  
I wanna see my genre where it belongs  
It's gettin' bigger, are you hearin' the songs?  
I wanna hail up Meridian Dan  
And the rest of the Meridian Gang  
Big up the youngers who were comin' up in the game  
Yes, you can make a million pound  
I was with Geeneus, we made the wickedest ting  
From day, we've been living this sound

All these months in a year  
Sippin' on wine and beer  
So much gyal over here  
Must be love in the air  
All I wanna do is party all night  
So let me just make that clear  
I can see bottles of the Grey Goose  
I can see bottles of Belvedere  
Rise in the mornin', I put the work in  
Flow's wavy like a duck surfin'  
You can stand still but the clock's turnin'  
If you don't work then you're not earnin'  
For the right reason, I know about cash  
I should have a birthday bash  
Then I can draw for my  
25 MCs chilling out back

All these dons in the crew  
Bare shows, always on the move  
Murk it where we go to  
Man skank out, I should do a bogul  
If the show's live then I'll do a stage dive  
You got your phone out, you're on FaceTime  
Fist pumpin' like before race time  
Heart beatin' like it's police chase time  
I've been given new time  
I've learned loads and loads through time  
Let me give a shout to my scene one time  
Let me give a shout to my scene two time  
Now I get clocked like a sport shoe sign  
Man jump ahead like more food time  
I can still spray up the riddims  
Of the oldest or the new grime
